# COVID-19 Data by School District Weekly Summary

December 29, 2020

#### **Background Information and Considerations**

This report provides data on confirmed COVID-19 cases from December 14 - December 27, 2020 for school districts located within the Fond du Lac County Health Department (FCHD) jurisdiction. Data may be underreported for recent days because test results can take multiple days to be reported to the health department. Data are subject to change as cases are investigated, for example as updates or corrections are made to case information. As this is a weekly report for the past 14 days, there will always be a week of overlap between reports.

The COVID-19 data provided in this report is specific to the FCHD jurisdiction (population: 105,269). It does not include data or cases for the portions of the school districts that fall outside of Fond du Lac County. It is important to note that some of the school districts in this report have a portion of the school district that falls outside of Fond du Lac County which may cause case counts for the past two weeks and case rates to be underreported. The burden status for those school districts should be considered with this in mind, that this report only accounts for case counts within the Fond du Lac County jurisdiction. FCHD only provides case counts, case rates, and burden status based on the jurisdiction of Fond du Lac County. School districts that have no schools located within Fond du Lac County are not included in this report.

Case rates fluctuate greatly with small population sizes. Interpret with caution, rely more on case counts and trend of case counts over time to estimate risks. Decisions about learning models for school districts should not be based solely on this data.

WI DHS has map visualizations available for data on COVID-19 cases and deaths by county and census tract, municipality, school district, and zip code. Access WI DHS COVID-19 map visualization data here.

### Confirmed Cases by School District for the Past Two Weeks (Dec. 14 – Dec. 27, 2020)

|                                      | Case Count for past 2 weeks | Case Rate<br>(per 100,000) | Burden*   | Population** |
|--------------------------------------|-----------------------------|----------------------------|-----------|--------------|
| Campbellsport School<br>District     | 68                          | 652.5                      | Very High | 10,421       |
| Fond du Lac School<br>District       | 334                         | 628.5                      | Very High | 53,143       |
| North Fond du Lac<br>School District | 56                          | 671.7                      | Very High | 8,337        |

| Oakfield School<br>District          | 19  | 580.0 | Very High | 3,276   |
|--------------------------------------|-----|-------|-----------|---------|
| Ripon Area School<br>District        | 52  | 497.2 | Very High | 10,459  |
| Rosendale-Brandon<br>School District | 29  | 506.8 | Very High | 5,722   |
| Waupun Area School<br>District       | 32  | 166.2 | High      | 19,251  |
| Fond du Lac County                   | 623 | 591.8 | Very High | 105,269 |

<sup>\*</sup>Burden is based off of the case rate per 100,000 people in the past two weeks. Interpret with caution as case rates fluctuate greatly with small population sizes. Visit the DHS website for more information on this indicator and county case rates and burden <a href="https://www.dhs.wisconsin.gov/covid-19/local.htm">https://www.dhs.wisconsin.gov/covid-19/local.htm</a>

# Number of Confirmed Cases and Rate per 100,000 People by School District (SD) Geographic Boundary and Age Group in the Past Two Weeks (Dec. 14 – Dec. 27, 2020)

| 15-19  | 3                   | 24                | 3                       | 0                  | 3                  | 7                        | 1          |
| Total 0-19<br>Cases                              | 11                  | 54                | 6                       | 2                  | 7                  | 7                        | 7          |
| 0-19<br>Population<br>Case Rate<br>(per 100,000) | 105.6               | 101.6             | 72.0                    | 61.1               | 66.9               | 122.3                    | 36.4       |
| 0-19 Burden<br>Status                            | High                | High              | Moderately<br>High      | Moderately<br>High | Moderately<br>High | High                     | Moderate   |

Note: Rate is determined by # of new confirmed cases during the past two weeks divided by population in the school district geographic boundary multiplied by 100,000. Rates can fluctuate greatly with small population sizes making it difficult to call out high rates. Small population data may be more effectively looked at in a trend wise fashion.

<sup>\*\*</sup>Population for school district was retrieved from <a href="https://nces.ed.gov/programs/edge/TableViewer/acsProfile/2018">https://nces.ed.gov/programs/edge/TableViewer/acsProfile/2018</a>.

Population for Fond du Lac County was retrieved from July 1, 2020 ESRI Census Block Apportionment Data Enrichment.

Note: Fond du Lac County Health Department jurisdiction reports for the portions of the school districts that fall within Fond du Lac County.

| Burden Status   | Case Rate per 100,000 residents in the past two weeks        |  |
|-----------------|--|--|
| Low             | Case rate is less than or equal to 10.                       |  |
| Moderate        | Case rate is greater than 10, but less than or equal to 50.  |  |
| Moderately High | Case rate is greater than 50, but less than or equal to 100. |  |
| High            | Case rate is greater than 100.                               |  |
| Very High       | Case rate is greater than 350.                               |  |
| Critically High | Case rate is greater than 1,000.                             |  |

Note: Number of cases for each Burden Status refers to the number of cases during a two-week time span.
